## ABSTRACT COPYRIGHT TRANSFER AGREEMENT

<b>SUBMITTER NAME</b>	
<b>ABSTRACT NUMBER</b>	
<b>ABSTRACT TITLE</b>	

I herewith confirm that I will duly complete this form, obtaining signatures from all co-authors, and will return it no later than **1 February 2012** to the World Heart Federation (WHF) Headquarters. WHF is collecting the CTA forms on behalf of the American Heart Association (AHA) for the World Congress of Cardiology Scientific Sessions 2012. This procedure is mandatory in order for the abstract to be published in *Circulation*, Journal of the American Heart Association.

The AHA continues to follow best practice with regard to the requirements for copyright assignment for submitted abstracts and articles. Although we appreciate that it is sometimes problematic to obtain all abstract author signatures, we feel that it is important to validate [or verify] the inclusion of authors' names in submitted material that may be accepted after grading for publication in *Circulation: A Journal of the American Heart Association*. We will continue to require that all authors sign the copyright assignment sheet.

The American Heart Association, Inc (AHA), a New York not-for-profit corporation, located at 7272 Greenville Ave., Dallas, TX 75231, and Author(s) hereby agree as follows:

In consideration of the WCC 2012 Scientific Programme Committee's acceptance of the abstract listed below for presentation at World Congress of Cardiology Scientific Sessions 2012:

<b>Abstract title:</b>
------------------------

The undersigned author(s) hereby assigns, conveys, and otherwise transfers all rights, title, interest, and copyright ownership in said work to the AHA effective upon acceptance of said work for publication. "Work" includes the material submitted for publication and any other related material submitted to the WCC 2012 Scientific Programme Committee.

The assignment of rights to the AHA includes, but is not expressly limited to rights to edit, publish, reproduce, distribute copies, prepare derivative works, include in indexes or search databases in print, electronic, or other media, whether or not in use at the time of execution of this agreement, and claim copyright in said work throughout the world for the full duration of the copyright and any renewals or extensions thereof.

*The assignment of rights hereunder does not extend to the full length article on which the abstract is based.*

Author(s) retain the right to subsequently include the work in articles, books, or derivative works that he/she authors or edits provided said use does not imply the endorsement of the AHA. Other uses or reproductions require permission from the AHA, which shall not be unreasonably withheld.
