**About the World Congress of Cardiology & Cardiovascular Health 2018**

The World Congress of Cardiology & Cardiovascular Health 2018 (WCC 2018) will gather heart health experts and specialists from related disciplines in Dubai. The event is organized by the World Heart Federation in partnership with the Emirates Cardiac Society and the Gulf Heart Association.

We look forward to welcoming you in Dubai to the World Congress of Cardiology & Cardiovascular Health 2018. "We look forward to welcoming you in Dubai to the World Congress of Cardiology & Cardiovascular Health, with whom we are putting together an exciting programme for cardiologists, internal medicine specialists, general practitioners, nurses and allied health professionals." President David Wood, President of the World Heart Federation.

**WCC 2018 Scientific Programme**

The programme will focus on the following scientific topics:

- Epidemiology / Prevention / Health promotion / Public health / Health systems / Health literacy / Health equity / Health policy
- Cardiometabolic disease / Lifestyle behaviour / Atherosclerosis / Obesity / Diabetes / Hypertension
- Heart failure / Left ventricular function / Myocardial function
- Arrhythmias (led by Ahmed Hersi)
- Acute coronary syndrome / Coronary interventions / Acute coronary syndromes / Coronary intervention / Coronary revascularization / Coronary artery disease
- Hypertension / Obesity / Dyslipidemia / Diabetes
- Valvular disease / RHD / Pulmonary circulation / Cardiac imaging / Cardiac computed tomography / Magnetic resonance imaging
- Paediatrics / Adolescent / Congenital heart disease
- Cardiac imaging (led by Mouaz Al-Mallah)
- Stroke / Peripheral circulation / Non-coronary
- Ischaemia / Coronary artery disease / Coronary interventions / Aorto-arteritis
- Valvular intervention (led by Murat Tuzcu)
- Pericardial disease / Chagas disease (led by Eloisa Arbustini)
- Genetics / Epigenetics / Technology / E-health
- Physical Activity / Advocacy (led by Francisco Gualandi)
- Infections / Myocarditis / Infectious / Aortic valve disease / Endocarditis
- Inborn errors of metabolism / Genetic metabolic disorders
- Arrhythmias (led by Ahmed Hersi)
- Cardiac imaging / Cardiac computed tomography / Magnetic resonance imaging
- Hypertension / Obesity / Dyslipidemia / Diabetes
- Valvular disease / RHD / Pulmonary circulation / Cardiac imaging / Cardiac computed tomography / Magnetic resonance imaging
- Paediatrics / Adolescent / Congenital heart disease
- Cardiac imaging (led by Mouaz Al-Mallah)
- Stroke / Peripheral circulation / Non-coronary
- Ischaemia / Coronary artery disease / Coronary interventions / Aorto-arteritis
- Valvular intervention (led by Murat Tuzcu)
- Pericardial disease / Chagas disease (led by Eloisa Arbustini)
- Genetics / Epigenetics / Technology / E-health
- Physical Activity / Advocacy (led by Francisco Gualandi)
- Infections / Myocarditis / Infectious / Aortic valve disease / Endocarditis
- Inborn errors of metabolism / Genetic metabolic disorders
- Arrhythmias (led by Ahmed Hersi)
- Cardiac imaging / Cardiac computed tomography / Magnetic resonance imaging
- Hypertension / Obesity / Dyslipidemia / Diabetes
- Valvular disease / RHD / Pulmonary circulation / Cardiac imaging / Cardiac computed tomography / Magnetic resonance imaging
- Paediatrics / Adolescent / Congenital heart disease
- Cardiac imaging (led by Mouaz Al-Mallah)
- Stroke / Peripheral circulation / Non-coronary
- Ischaemia / Coronary artery disease / Coronary interventions / Aorto-arteritis
- Valvular intervention (led by Murat Tuzcu)
- Pericardial disease / Chagas disease (led by Eloisa Arbustini)
- Genetics / Epigenetics / Technology / E-health
- Physical Activity / Advocacy (led by Francisco Gualandi)
- Infections / Myocarditis / Infectious / Aortic valve disease / Endocarditis
- Inborn errors of metabolism / Genetic metabolic disorders
- Arrhythmias (led by Ahmed Hersi)
- Cardiac imaging / Cardiac computed tomography / Magnetic resonance imaging
- Hypertension / Obesity / Dyslipidemia / Diabetes
- Valvular disease / RHD / Pulmonary circulation / Cardiac imaging / Cardiac computed tomography / Magnetic resonance imaging
- Paediatrics / Adolescent / Congenital heart disease
- Cardiac imaging (led by Mouaz Al-Mallah)
- Stroke / Peripheral circulation / Non-coronary

The World Heart Federation

Striving for a 25% reduction by 2025 in premature deaths from cardiovascular disease around the world.

The World Heart Federation is dedicated to leading the global fight against cardiovascular disease (CVD), including heart disease and stroke, which claims a life every 38 seconds, is the leading cause of death globally and one of the leading causes of morbidity. The federation is a member of the World Health Organization (WHO) and the United Nations Sustainable Development Goals (SDGs) target to end preventable deaths and diseases by 2030.

The World Heart Federation is the only CVD organization in official relations with the World Health Organization (WHO). Together with our members - a community of more than 200 public health, medical care, educational and research organizations dedicated to the treatment, prevention and control of CVD - we are working to end needless deaths from exposure to tobacco and other risk factors, lack of access to treatment, and neglected conditions like rheumatic heart disease which kills hundreds of thousands of children each year.

We aim to establish a strong network for the public and healthcare professionals to improve the quality of life and longevity, through better prevention, diagnosis and treatment of heart disease.

Our mission is to educate the public and healthcare professionals, and reduce the burden of cardiovascular disease in the world. For further information, please visit:

www.world-heart-federation.org

The Gulf Heart Association

The Gulf Heart Association (GHA) is a leading not-for-profit, non-governmental organization that is established in the region. The GHA is a unique umbrella organization comprising of seven cardiac societies under the umbrella of the Emirates Medical Association. The GHA has been very active in promoting and sponsoring research among its members.

For further information, please visit:

www.gulfheart.org

The Emirates Cardiac Society

The Emirates Cardiac Society (ECS) is a non-profit organization comprising of cardiologists within the UAE that work under the umbrella of the Emirates Medical Association. Our mission is to educate the public and healthcare professionals and reduce the burden of cardiovascular disease in the UAE.
