The Case for Urgent Action

"Heart disease and stroke remain the world’s foremost causes of premature death, despite being largely preventable through the mitigation of known risk factors. Diseases of the circulatory system are concentrated in low- and middle-income countries, where over 80% of premature deaths due to heart and stroke occur and where rheumatic heart disease continues to exact a vast health burden on the people and settings that can least afford it. Without swift adoption of prevention and intervention strategies, current worldwide trends indicate increased global death and disability from preventable non-communicable diseases (NCDs)."

"The question the cardiovascular disease (CVD) community continues to face is:

HOW CAN WE CREATE A GREATER SENSE OF URGENCY WHEN WE’RE DEALING WITH THE WORLD’S NUMBER ONE KILLER?

“This is the rallying theme behind the World Heart Federation’s 2nd Global Summit on Circulatory Health.”

David Wood, President, World Heart Federation

The #1 Killer:

The objectives of the Summit are to:

1. Convene and mobilize advocates in circulatory health
2. Coordinate stakeholders and policymakers around shared goals
3. Campaign for circulatory health with a collective voice and a clear message
4. Catalyze action for circulatory health through civil society and policy engagement

These objectives lead directly to the intended outcomes of the Summit, namely to:

• Foster greater connectedness between participants
• Issue a collective call to action in light of the urgent need
• Discuss concrete next steps for programme implementation

OUTCOMES

The objectives lead directly to the intended outcomes of the Summit, namely to:

1. Foster greater connectedness between participants
2. Issue a collective call to action in light of the urgent need
3. Discuss concrete next steps for programme implementation

FORMAT AND THEMES

Through an interactive programme pairing open discussion in plenary sessions with focused workshops, the Summit aims to pinpoint both the ‘what’ and the ‘how’ of action needed to improve circulatory health.

Workshop sessions are thematically focused and highly interactive and will result in actionable next steps. Attendees will have the choice to participate in one of two parallel workshops aligning with each of the Summit themes.

Themes | Workshops
--- | ---
Knowledge exchange | 1. National CVD Action Plans
 | 2. Access to essential and affordable medicines and technologies
Tools for action | 3. WHO Global HEARTS Technical Package and WHF Roadmaps
 | 4. Moving towards healthier cities
Effective outreach with a powerful voice | 5. Political advocacy and reframing common messaging
 | 6. Building a civil society movement including the patient voice

The workshop sessions feed directly into the thematic plenary sessions that follow in order for lessons and results to be shared with all participants. The plenary sessions foster dialogue and interaction through a ‘forum-style’ format where workshop moderators, acting as rapporteurs, will share results from the workshops and summarize the action points discussed. To maximize the potential for an open discussion, these report-back sessions from the workshops do not feature slide presentations or formal speeches.

The Summit format and content has been developed to allow for participants to:

• Learn about new developments in heart health policy while exchanging knowledge and experience
• Identify areas for potential partnerships by meeting organizations that are working towards similar goals
• Develop strategies to advocate for national CVD plans and discuss successful policies to tackle risk factors for CVD
• Explore how tools such as the WHF Roadmaps and WHO HEARTS package can help achieve their goals
• Contribute to shaping the priorities and common messages going into the United Nations High-Level Meeting on NCDs in September 2018

FROM MEXICO TO SINGAPORE

Building on the first Global Summit on Circulatory Health, held on the occasion of the 2016 World Congress of Cardiology & Cardiovascular Health in Mexico City, the second Summit seeks to demonstrate progress and development from the Mexico Declaration to a proposed Singapore Action Plan.

The guiding themes and workshop topics of the Summit programme are based on the central objectives of the Mexico Declaration in order for participants to discuss and agree on how to realise these aims through actionable next steps. During the Summit participants will collectively develop the Singapore Action Plan, which will encompass the priorities and actions agreed through the workshops and plenary sessions. It will serve as a call to action to all stakeholders in circulatory health for the prevention and control of circulatory diseases and the advancement of our shared goal of reducing premature cardiovascular deaths by 25% by 2025.

Through the convening of key leadership figures in civil society, policy, business, and government, we aim to foster a larger movement for circulatory health to maximize the impact the CVD community will have on key milestones in global health in 2018 and intensify our sense of urgency to tackle the world’s number one killer.

Kathryn Taubert, American Heart Association
Shizuya Yamashita, International Atherosclerosis Society
Sze Yunn Pang, Hospital to Home, Philips
Deborah Gildes, Novartis
Moderator: Helen McGuire, PATH
Jagat Narula, St. Luke’s & Roosevelt Hospital of Mount Sinai

LUNCH BREAK

PLENARY – KNOWLEDGE EXCHANGE
Panellists/ Rapporteurs:
Katie Dain, NCD Alliance
Helen McGuire, PATH
Jagat Narula, St. Luke’s & Roosevelt Hospital of Mount Sinai
Jack Tan, Singapore Cardiac Society
Moderator: Richard Horton, The Lancet

HEALTH BREAK

PLENARY – KNOWLEDGE EXCHANGE
Panellists/ Rapporteurs:
Katie Dain, NCD Alliance
Helen McGuire, PATH
Jagat Narula, St. Luke’s & Roosevelt Hospital of Mount Sinai
Jack Tan, Singapore Cardiac Society
Moderator: Richard Horton, The Lancet

HEALTH BREAK

WORKSHOPS – TOOLS FOR ACTION
WHO GLOBAL HEARTS PACKAGE AND WHF ROADMAPS
Panellists: Susan Capps, Amgen
Mohammad Daud, Ministry of Health, Nepal
Werner Hacke, World Stroke Organization
Daniel Lackland, World Hypertension League
Dolores Manese, Ministry of Health, Philippines
David Stewart, International Council of Nurses
Amit Yadav, HRIDAY/ Public Health Foundation of India
Moderators: Oyere Onuma, World Health Organization
Karen Sliwa-Hahnle, Halter Institute for Cardiovascular Research in Africa

MOVING TOWARDS HEALTHIER CITIES
Panellists:
Manuel Arango, Canadian Heart and Stroke Foundation
Li Choo Kwok-Perey, Manulife
Fausto Pinto, European Society of Cardiology
Yih Ying Ng, Singapore Civil Defense Force - MyResponder App
Moderators: Fiona Bull, Centre for the Built Environment and Health, University of Western Australia
Clara Chow, The George Institute
### Programme | Day 2 | Thursday 13 July

#### 9.00-10.30  
**Room: SUMMIT 2**  
**PLENARY – TOOLS FOR ACTION**  
Panellists/ Rapporteurs:  
- Fiona Bull, Centre for the Built Environment and Health, University of Western Australia  
- Clara Chow, The George Institute  
- Oyere Onuma, World Health Organization  
- Karen Sliwa-Hahne, Hatter Institute for Cardiovascular Research in Africa  
Keynote Presentation:  
- S. Subramaniam Sathasivam, Minister of Health, Malaysia  
Moderator:  
- Richard Horton, The Lancet

#### 10.30-11.00  
**Room: NICOLL 2**  
**HEALTH BREAK**

#### 11.00-12.30  
**Room: 328**  
**WORKSHOPS – EFFECTIVE OUTREACH WITH A POWERFUL VOICE**  
**POLITICAL ADVOCACY AND REFRAMING COMMON MESSAGING**  
Panellists:  
- Beatriz Champagne, InterAmerican Heart Foundation  
- Mike Daube, Curtin University  
- Simon Gillespie, British Heart Foundation  
- Kui Han Sim, Minister, Cabinet of Sarawak, Malaysia  
- Lukasmi Hanafia, Indonesia Heart Foundation  
- Susanne Logstrup, European Heart Network  
Moderators:  
- Rohan Greenland, Asia-Pacific Heart Network  
- Floris Italianer, Dutch Heart Foundation

**Room: 327**  
**BUILDING A CIVIL SOCIETY MOVEMENT INCLUDING THE PATIENT VOICE**  
Panellists:  
- Katie Dain, NCD Alliance  
- Habib Gamra, African Heart Network  
- John Meiners, American Heart Association  
- Rajakanth Raman, Rainbow Across Borders  
- Hung Yong Tay, Singapore Heart Foundation  
- Maciej Tomaszewski, International Society of Hypertension  
Moderators:  
- Tony Duncan, Heart Foundation of New Zealand  
- Durhane Wong-Reiger, Canadian Organization for Rare Disorders

#### 12.30-14.00  
**Room: NICOLL 2**  
**LUNCH BREAK**

#### 14.00-14.40  
**Room: SUMMIT 2**  
**CLOSING PLENARY – THE ROAD TO 2018 AND EFFECTIVE OUTREACH: BUILDING PARTNERSHIPS AND MOBILISING COMMUNITIES TO PRIORITISE CVD**  
Panellists/ Rapporteurs:  
- Rohan Greenland, Asia-Pacific Heart Network  
- Floris Italianer, Dutch Heart Foundation  
- Tony Duncan, Heart Foundation of New Zealand  
- Durhane Wong-Reiger, Canadian Organization for Rare Disorders  
Moderator:  
- Richard Horton, The Lancet

#### 14.40 – 15:30  
**Room: SUMMIT 2**  
**Keynote Presentation:**  
- Sania Nishtar, Heartfile  
Keynote Statements:  
- Samira Asma, Centers for Disease Control and Prevention  
- Werner Hacke, World Stroke Organization  
- Etienne Krug, World Health Organization  
- David Stewart, International Council of Nurses  
- Gene Tsoi, World Organization of Family Doctors  
Conclusions and Next Steps:  
- David Wood, World Heart Federation  
- Jean-Luc Eiselé, World Heart Federation  
Moderators:  
- David Wood, World Heart Federation  
- Jean-Luc Eiselé, World Heart Federation

---

The WHF 2nd Global Summit in Circulatory Health programme is supported by a grant from Pfizer Inc.
29 September 2017
Small changes can make a powerful difference.
On World Heart Day, share how you power your heart and inspire millions of people around the world to be heart healthy.
